How to Make \$200 - \$1000 Doing Remote Jobs Here in Nigeria

Today's Nigeria is not a place you can live in with just one source of income. That is the worst financial decision you will ever make. Having multiple streams of income is not only important but **COMPULSORY** if you want to survive the harsh economic weather of Nigeria.

One easy way to create another source of income is to start working for international companies remotely here in Nigeria while you get paid in foreign currencies (Pounds, Dollars, Euros).

With the internet, you don't need to travel abroad before you can earn in foreign currencies. You can comfortably do that from your bedroom here in Nigeria so long as you have the right digital skills that these foreign companies need.

As you can see from this article from popular Nigerian new daily Punch, over 90 million jobs have gone remote and this means more money to

be made from these foreign companies, you can read more [about this article here](#).

At this point, let me explain what remote work is because I don't want to assume that everyone reading this report right now know what it means. So if you were asked what remote work is, what would be your answer?

Anyways, remote work in a lay man's term simply means working for an abroad based company from another location other than the location of the company. So this means working for a company in the USA for instance without residing in the USA and still get paid in US Dollars right here in Nigeria.

When COVID-19 pandemic broke out in 2020, this led to many foreign companies closing their physical offices while running their operations remotely with workers from all over the world.

If you can remember back then, everywhere was on lockdown, so how do you think most companies survived that period? It was because of the possibility of remote work. Working from the comfort of your home with just a computer and a reliable internet connection.

That was how most of the foreign companies survived that harsh tide at that time without going bankrupt.

I also forgot to tell you that these international companies saved millions of dollars, pounds and euros in operation cost because most of them hired Africans (Especially Nigerians) and Asians (mostly filipinos, indians and pakistanis) who's rate were relatively **CHEAP** compared to their counterparts in western Europe and north America.

I know you'd be surprised that I called our rate cheap, yes I did because that's a fact. Lemme give you an instance, a graphic design job a Nigerian designer will gladly do for \$100 which is over 130k Naira, an American will not do it for less than \$500.

Are you now seeing the main reason why these foreign businesses prefer hiring Nigerians to work for them remotely? It's simple - we help them save cost on business overheads while **OVER-DELIVERING** the best job.

Yes, I say that boldly because I've been working remotely for the past 6 years and I can tell you for a fact that Nigerians are among the smartest and most intelligent professionals in the world. If you doubt me, make your own findings and prove me wrong.

These international brands know this and this is why they quickly hire Nigerians so long as you have the skill they need.

So what are the skills you need to start earning at least \$200 to \$1000 monthly?

For the sake of time because I didn't intend for this report to be too long, I will give just 5:

1. Social Media Management
2. Copywriting
3. Business Analysis
4. Virtual Assistance
5. Digital Marketing

1. Social Media Management

Photo by [Firmbee.com](https://www.firmbee.com) on [Unsplash](https://www.unsplash.com)

Social media management simply means the process of managing your online presence on social media platforms like Facebook, X (Formerly Twitter), Instagram, TikTok, Pinterest. If you can do this for yourself, imagine getting paid thousands of dollars monthly to do it for international companies.

As a Social media manager, you simply create, schedule and post content.

You also analyze the social media audiences of your clients to determine the type of content they love to engage with. This will help you to draw up the right content strategy that will help your posts generate more engagement.

2. Copywriting

Photo by [Campaign Creators](#) on [Unsplash](#)

Copywriting simply means writing persuasive marketing and promotional materials that motivate people to take some form of action, such as click on a link, make a purchase or book a consultation session.

According to [Coherent Marketing Insights](#), the global copywriting services market size was **\$25.3 billion** in 2023... and it's expected to reach **\$42.2 billion** by 2030.

Businesses all over the world — both big and small — spend *millions of dollars* on copywriting services each year. Imagine making just 0.001% fraction of that amount of money offering copywriting service to these

international businesses. You'd be a millionaire in less than 2 years guaranteed... and yes it is possible!

3. Business Analysis

Photo by [Kaleidico](#) on [Unsplash](#)

Business analysis means identifying the needs of a business and proffering solutions to business problems.

A business analyst identifies business areas that can be improved to increase efficiency and strengthen business processes.

Becoming a business analyst is very easy especially if you already have a background in mathematics or data analysis. There are also fast paced and affordable online courses you can undergo to become a certified business analyst.

According to www.salary.com The average Business Analyst salary in the United States is **\$104,964** as of April 24, 2024, but the salary range typically falls between \$95,523 and \$115,974. Remember you can get this jobs remotely, so get your calculator to do the exchange rate conversions!

4. Virtual Assistance

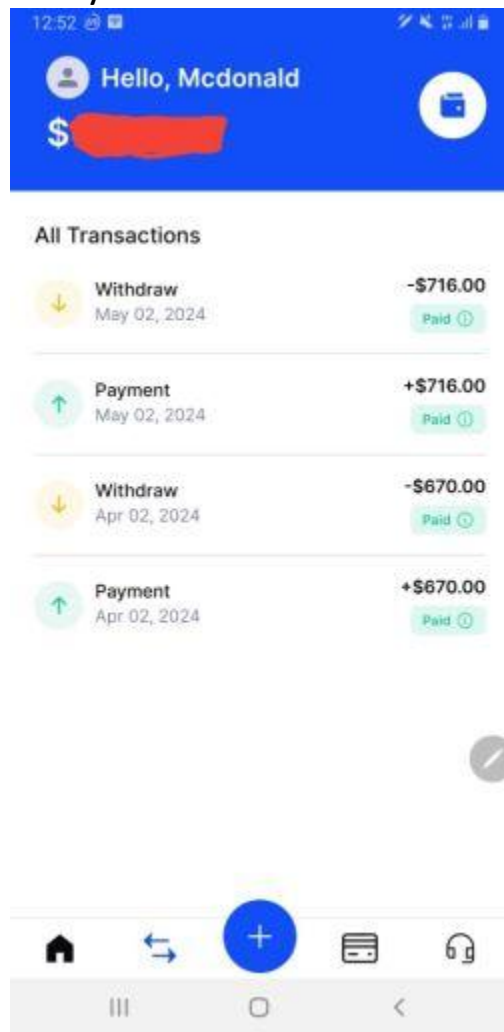

Photo by [LinkedIn Sales Solutions](#) on [Unsplash](#)

This one is my industry. Been playing this field for almost a decade. I can tell you with full assurance that been a virtual assistant can make you very rich. Anyway who is a virtual assistant?

A virtual assistant is a remote worker who offers administrative support services to foreign business or business owners, usually on a full-time or part-time basis.

Becoming a virtual assistant is not difficult. You just need determination. You can make at least \$500 - \$1000 monthly with just one client. Below is a screenshot of my recent payments from just one of my clients.

To make it easier for you, I have created a step-by-step, self-paced online course called the **Virtual Assistant Dollar Program (VADP)** that will teach you how to get started as a virtual assistant and start earning in foreign currency too.

Below is a review from one of my students in Cameroon.

Isabella Siriwah @siriwah53697 · Apr 1

Replying to [@McDonald_EK](#) and [@expertnaire](#)

I just finished the VADP and it's just awesome. Mcdonald you did a great job in that course. I highly recommend to anyone who aspires to take up a course on VA.

Here is another review

Joshua Ebuka Chukwu @Joshua_ChukwuEb · 12h

How about an opportunity to cash out in dollars from the comfort of your home? You sincerely don't want to miss this Virtual Assistant Dollar Program (VADP) put together by [@McDonald_EK](#) Thank you McDonald for this life changing opportunity.

And another one...

@MrshunNG

[@McDonald_EK](#) Thank you for putting the training on Virtual Assistant Dollar Program together...This is highly recommended for professionals or youths who wants to earn from the comfort of their home...Thanks Man. [#MrShun](#)

6:14 AM · Nov 2, 2022 · Twitter for Android

This course is very affordable, you can get it for just **N20,000** only.

If you are serious about earning a full-time income online, quickly enroll for the **Virtual Assistant Dollar Program** now - www.onlinebusinessng.com/vadp

5. Digital Marketing

Photo by [Alexander Shatov](#) on [Unsplash](#)

Digital marketing simply means promoting and selling products and services on the internet through social media platforms, emails and search engines.

A digital marketer designs and executes the marketing strategy of a business to ensure they achieve their marketing goals.

Just like the other skills, digital marketing can be learnt through online courses. I highly recommend the Google/Coursera digital marketing course. It cost less than \$30/month and it is also self-paced, so you can learn at your own schedule.

What Next??

Any of the above skills can comfortably put you on the payroll of any international company so long as you are able to position yourself well and apply for their remote jobs.

You can sell any of those skills as a service and make bank every month. So if you can provide any of those services, quickly head over to these websites I will be listing below to create a profile and start applying for jobs.

But before you rush to these websites, make sure you have a solid Curriculum Vitae (CV) and cover letter. Do allow that bother you, here are websites you can create a well-designed CV and cover letter for almost free - <https://visualcv.com>

Once you are done creating your CV and cover letter, you can then go to these websites below to apply for remote jobs.

10 Websites to Apply for Remote Jobs

1. [Working Nomads](#)
2. [Remote.Co](#)
3. [FlexJobs](#)
4. [Remote](#)
5. [WeWorkRemotely](#)
6. [JustRemote](#)
7. [NoDesk](#)

8. [Automattic](#)
9. [GoTranscript](#)
10. [Wishup](#)

Now, all you need to do is head over to these websites and search for remote jobs. Apply for the ones that interest you, pass your interview with the employer and start earning in foreign currencies from the comfort of your home.

***PS:** If you'd like to become a virtual assistant working with international companies and getting paid at least \$500 (over 700,000 Naira) monthly here in Nigeria click the link below to get started -*
